Divisions. Until the mid-1970s, most General Motors brands designed and manufactured their own engines with few interchangeable parts between brands. In the mid-1960s, there were 8 separate families of GM V8 engines on sale in the USA.. By the 1970s, GM began to see problems with this approach.

**List of GM engines - Wikipedia**

The GM Ecotec engine, also known by its codename L850, is a family of all-aluminium inline-four engines, displacing between 1.4 and 2.5 litres. While these engines were based on the GM Family II engine, the architecture was substantially re-engineered for the new Ecotec application produced since 2000. This engine family replaced the GM Family II engine, the GM 122 engine, the Saab H engine, and ...

**GM Ecotec engine - Wikipedia**

The 8.0L, 9.1L, and 10.3L engine family was designed from the ground up as an industrial engine. From the engine block to the heads to the camshaft, each component was designed to perform in an industrial application.

Belden Speed & Engineering is a small speed shop focused on preserving, restoring and increasing the performance of mid 1960's through early 1970's American muscle cars. We work on naturally-aspirated (carburetors!!) street cars that most of today's shops lack the experience or passion to repair, restore and tune them.
